Become Part of the Family

People choose Loretto not just for our programs, but more importantly, our employees.

Our compassionate, highly trained staff not only bring in the latest techniques to accelerate your therapy for a rapid recovery, they are keenly focused on all aspects of your physical and emotional well-being, making you comfortable, and feeling welcome, until you're strong enough to be on your own.

Our individualized rehabilitation programs are intense and will challenge you, helping you to build strength and independence, to get you back to functioning at 100% quickly.

Personalized Care That's Right For You

You will work with an interdisciplinary team to develop individualized care plans, and we want your family involved, so everyone knows what to expect, how your program is structured, and when you're therapy is complete. Together we'll celebrate your milestones, and do everything possible to move you through the process. Most individuals who rehab with us can expect the process to last one to three weeks, depending upon your diagnosis.

No Surprises – Know What to Expect Throughout Your Program

Your care plan will focus on all aspects of your recovery, from your exercise regimen, to teaching you the skills you need to be on your own. This might include:

- Functional strengthening exercises
- Training in mobility and using a wheelchair
- Joint protection and fall prevention
- Community safety tips and home modification suggestions
- Training in self-care activities and use of assistive devices
- Instruction for an in-home exercise program
- Incision care

And, before you leave, we ensure you, your family and any caregivers are fully educated on what's needed for you to return home.
